

Clearer Destination

(Steven Galbraith & Armin Hadamer ©2008)

There's no clearer destination than where I'm goin'
So I try to take some comfort in just knowin'
But ahead of me are miles of track
Miles and miles of no turning back
There's no clearer destination than where I'm goin'

And you never know you're true until you're tried
And the pages of my book are open wide
All the lines are there to see
Like the thin rings of a fallen tree
There's no clearer destination than where I'm goin'

In the line between anxiety and hope
Comes the thought to just give up and pull the rope
But the porter says, "Just let her ride
Your stop is on the other side
There's no easier destination than where you're goin'"

And I know too well what waits beyond the bend
So I think of all my faults too late to mend
And all the times that I went astray
And the burdens that the scales will weigh
There's no easier destination than where I'm goin'

There's no clearer destination than where I'm goin'
So I try to take some comfort in just knowin'
But ahead of me are miles of track
Miles and miles of no turning back
There's no clearer destination than where I'm goin'
